

VOICES / VOCES

Video Opportunities for Innovative Condom Education and Safer Sex FACT SHEET AND AGENCY READINESS SELF-ASSESSMENT

Program Overview

Health educators convene groups of 4-8 clinic patients in a room that allows privacy for discussions. Groups are gender-and-ethnic specific, so that participants can develop prevention strategies appropriate for their culture. Information on HIV risk behavior and condom use is delivered by videos, facilitated group discussion, and a poster board presenting features of various condom brands in English and Spanish. The five culturally specific videos can be used to target both African-American and Latino participants. Skills in condom use and negotiation are modeled in the videos, then role-played and practiced by participants during the discussion that follows. At the end of the single, 45-minute session, participants are given samples of the types of condoms they have identified as best meeting their needs.

Core Elements

The core elements of VOICES/VOCES include:

- Viewing culturally-specific videos portraying condom negotiation;
- Conducting small group skill-building sessions to work on overcoming barriers to condom use;
- Educating program participants about different types of condoms and their features; and
- Distributing samples of condoms identified by participants as best meeting their needs.

Target Population

The VOICES/VOCES program targets African-American and Latino adult men and women clinic clients.

Program Materials

- Preview Guide of materials for agency administrators
- Bilingual (English/Spanish) planning and implementation manual
- Bilingual (English/Spanish) condom poster
- Five videos:
 - *Do It Right* is aimed at African American, heterosexual men and women.
 - *It's About You* is a telenovela (soap opera)-style video aimed at English-speaking or bilingual, heterosexual Latino men and women.
 - *Se Trata De Ti* is a telenovela-style video aimed at Spanish-speaking, heterosexual Latino men and women.
 - *Porque Sí* targets Latino men and women.
 - *Safe in the City* consists of three soap-opera style vignettes and two animated clips. The characters in this video are more ethnically diverse (African American and Latino).
- Penile Model and Sample Condoms

Research Results

After the VOICES/VOCES intervention, the following results were displayed:

- Participants increased knowledge about the transmission of HIV and other STDs.
- Participants had a more realistic assessment of their personal risk.
- Participants had a greater likelihood of getting condoms and intending to use them regularly.
- Participants presented fewer repeat STDs.

For More Information on VOICES/VOCES

To obtain additional information about the technical assistance system and/or to get your name on a list for a future training, **please visit our website www.effectiveinterventions.org**. If you do not have access to the web, you may also call (800) 462-9521 or email interventions@aed.org

AGENCY READINESS SELF-ASSESSMENT

The following is a brief self-assessment intended to assist agencies (e.g., CBOs) to determine if they currently possess the capacity, or can build the capacity, to adopt and implement the VOICES/VOCES intervention. Please read each item and then place a check mark (✓) in only one response option.

Capacities and Resources Needed for VOICES/VOCES	Yes, we have this capacity (1)	We do not presently have this capacity, but can build the capacity (2)	No, we do not have this capacity (3)
1. Available personnel skilled at facilitating group discussions (or personnel who can be trained in facilitation)			
2. A television, DVD player/computer that plays DVDs, and a LCD Projector.			
3. The ability to work with clients in a private/quiet area without disrupting other agency services			
4. African-American and Latino heterosexual clients at risk for HIV/STDs			
5. Client flow that would allow for this 45-minute intervention			

If all of your responses were in column 1 (“Yes, we have this capacity”) or column 2 (“We do not presently have this capacity, but can build the capacity”), your agency is likely “ready” for VOICES/VOCES.
